Simplify archiving and Digital Preservation in Microsoft 365

Preserve

Send records from SharePoint to Preservica in a few clicks. Format obsolescence protection across 2,500+ formats. Your records stay readable, no matter what.

Search & Retrieve

Everything archived is fully indexed and searchable from within SharePoint. When a request comes in, you're ready.

Scale

Plugs into Purview, Power Automate, and soon Copilot. However your organization manages records, you can automate preservation to match.

Compliance-ready today. AI-ready tomorrow.

Preservica

Making long-term records accessible, trusted, & actionable

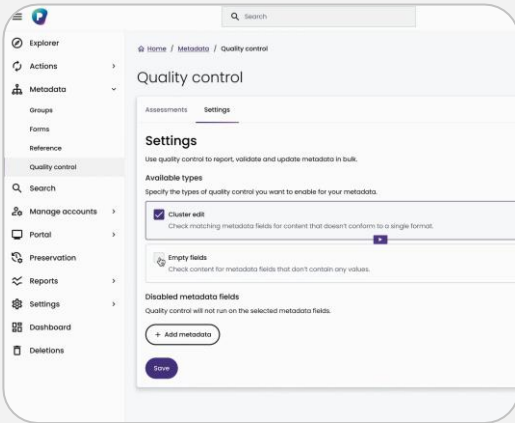

- SharePoint reserved for active records
- Consolidated Digital Preservation archive
- Self-service, unified search & retrieval
- Accelerate decommissioning
- Help ensure long-term data is AI ready

Your next steps...
