Preservica

Fulfil public records requests in minutes with secure self-service

Ensure instant access to your long-term records. Save time, serve your citizens and meet mandates.

Streamline workflows for all your long-term & permanent records

Developed in collaboration with our government user community, Preservica for Local Government is purpose-built to enable clerks and records teams to quickly organize digital records in one place, streamline common records workflows and cut record requests times with fast online access for departments and citizens.

Boards & Commissions	Court Records	Engineering Project Files	Vital Records	Land & Property Records	Historical Records

"Replacing our legacy physical and digital media with digital preservation has made us far more efficient - cutting records request times from days to minutes and providing easy, secure self-service for our Court and other departments."

Robin Heise, Records & Archives Manager, Greene County Records Center

GREENE COUNTY OHIO
History, Innovation & Natural Beauty

Boards & Commissions

Invite Boards to quickly submit public proceedings, minutes, videos and resolutions

- Comply with open meeting laws including the Sunshine Act
- Easily publish meeting records for your Boards & Commissions
- Ensure public records are automatically preserved for permanent access

Court Records

Enable Court departments to securely self-serve the records they need

- Quickly assemble Court records for new or re-opened cases
- Easily upload and organize digitized records by Court departments
- Automatically preserve to ensure long-term access

Engineering Project Files

Provide granular role based access to departments & agencies.

- Provide access from the field to large format paper plans
- Control access permissions to specific records across all departments
- Automatically preserve to ensure long-term access

Vital Records

Ensure access to vital records and simplify routine research requests

- Free up time by providing self-service to genealogists conducting research
- Simplify routine requests for REAL ID applications & probate requests
- Automatically maintain records in always readable formats

Land & Property Records

Safeguard the interest of citizens by preserving Permanent Land & Property Records

- Help protect citizens against deed fraud
- Save costs by replacing outdated microfilm processes
- Provide access to preserved records

Historical Records

Easily capture, upload, organize, and ensure citizen access to historical materials

- Enrich engagement with your local community
- Respond to records requests in minutes rather than days
- Quickly publish to your own easy-to-brand public portal
